

Horico - Figure DAK

Horico - Figure DAK

This is a Horico denture adjustment kit.

DENTURE ADJUSTMENT KIT

The Horico® Denture Adjustment Kit is effective for making denture adjustments.

The Black Hawk burs have fine, smooth-cutting teeth. The grinding, pre-polishing, and polishing points are used for finishing adjustments.

Each Kit Includes:

- Horico Black Hawk S274 134 060 for use on all thermo-plastics
- Horico Black Hawk S274 190 060 for use on all other dentures.
- H9860 for grinding
- H9861 for pre-polishing
- H9862 for polishing
